

Darco Water secures S\$10 million worth of projects across the region

- Secured 15 industrial turnkey projects across Taiwan, Singapore, Malaysia and Philippines
- Prominent customers include Seagate, SunPower, Cypress, Nomura Micro Science and etc
- All projects are targeted to be delivered by 1Q2011 with majority to be completed by end of December 2010

Singapore – 7 May 2010 – Mainboard-listed Darco Water Technologies Limited (the "Company" or "Darco" or the "Group"), a provider of integrated engineering and knowledge-based water treatment solutions, is pleased to announce that it has recently clinched 15 industrial turnkey projects worth an aggregate of approximately S\$10 million from customers in the electronic, semi-conductor and solar power manufacturing facilities across Taiwan, Singapore, Malaysia, and Phillipines. These orders are mainly air management and water treatment projects.

Mr. Thye Kim Meng, Executive Chairman and Chief Executive Officer of Darco, elaborates: "These orders confirm the recovery in the manufacturing industries that we have been expecting recently. These are encouraging indicators for us as most of our industrial customers largely come from the electronic and semi-conductor industries.

We are certainly looking forward to a speedier recovery in the global economy in 2009 and help us recover from a very challenging year in 2009."

The size of the orders ranges from a few hundred thousand dollars per order up to about S\$3.7 million per order. Notably, the Group clinched S\$3.7 million project from Nomura Micro Science Co., Ltd, a Japan-based public listed company engaging in the provision of ultra pure water production systems, for its Taiwan subsidiary. In addition, the Group also secured a S\$1.3 million project from the Singapore subsidiary of Seagate International, the world's largest manufacturer of hard drives and storage solutions. Other prominent customers include SunPower and Cypress.

Out of the 15 new projects, most of them came from Malaysia, which forms the Group's main industrial clientele. In terms of project value, 48% came from Taiwan, 35% from Singapore, 11% from Malaysia, and the remaining 6% from the Philippines.

All the projects are targeted for delivery by 1Q2011 with majority of them to be delivered by the end of December 2010. Therefore, the Group expects these projects to positively impact its performance in FY2010.
